3. Detailed User Journeys
4. Page Categories
5. Flow Diagrams

1. Overview

This document provides a comprehensive guide to the user experience flow of the Akku Electronics e-commerce platform. It maps out all completed pages and their interconnections, helping developers and designers understand the complete user journey.

Project Status

All Core E-commerce Flows Complete

- Home & Product Discovery
- User Authentication
- Shopping Cart & Checkout
- Payment Processing
- User Account Management

2. Complete UX Flow Map

2.1 Home/Landing Flow

```
index.html (Homepage - Starting Point)
```

2.2 Product Discovery Flow

```
index.html → category.html → products.html → product-detail.html
```

Flow Description:

- Users land on the homepage
- Navigate to specific categories
- Browse product listings
- View detailed product information

2.3 Authentication Flow (Guest Users)

```
product-detail.html → login.html
                        → register.html → verify-email.html

login.html → forgot-password.html → reset-password.html

login.html ↔ register.html (bidirectional)
```

Flow Description:

- Guest users can access product details
- Sign in via login page
- New users register and verify email

- Password recovery available from login

2.4 Shopping Flow (Logged-in Users)

```
product-detail-logged-in.html → cart.html → checkout.html → payment.html → order-confirmation.html
```

Flow Description:

- Authenticated users view products
- Add items to cart
- Enter shipping information
- Complete payment
- Receive order confirmation

2.5 User Account Management Flow

```
After Login:  
├─ my-profile.html (Profile Management)  
├─ my-orders.html (Order History)  
├─ my-reviews.html (Product Reviews)  
├─ settings.html (Account Settings)  
└─ wishlist.html (Saved Items)
```

Flow Description:

- Logged-in users access their dashboard
- Manage profile and settings
- View order history
- Write product reviews
- Manage wishlist

3. Detailed User Journeys

3.1 Scenario 1: New User Purchase Journey

Goal: First-time user makes a purchase

Step	Page	Action
1	index.html	User lands on homepage
2	category.html	Browse product category
3	product-detail.html	View product (guest mode)
4	register.html	Create new account
5	verify-email.html	Verify email address
6	product-detail-logged-in.html	Return to product (logged in)
7	cart.html	Add product to cart

8	checkout.html	Enter shipping details
9	payment.html	Complete payment
10	order-confirmation.html	Order success confirmation

Estimated Time: 5-10 minutes | **Key Pages:** 10 pages

3.2 Scenario 2: Returning User Purchase Journey

Goal: Existing user makes a purchase

Step	Page	Action
1	index.html	User lands on homepage
2	login.html	Login to account
3	category.html	Browse products
4	product-detail-logged-in.html	View product details
5	cart.html	Add to cart
6	checkout.html	Review and checkout
7	payment.html	Complete payment
8	order-confirmation.html	Order confirmation

Estimated Time: 3-5 minutes | **Key Pages:** 8 pages

3.3 Scenario 3: User Account Management

Goal: Manage user account and view history

Step	Page	Action
1	login.html	Login to account
2	my-profile.html	View/edit profile information
3	my-orders.html	Check order history
4	my-reviews.html	Write product reviews
5	settings.html	Update account settings
6	wishlist.html	Manage saved items

Estimated Time: 2-5 minutes | **Key Pages:** 6 pages

3.4 Scenario 4: Forgot Password Flow

Goal: User recovers forgotten password

Step	Page	Action
1	login.html	Attempt to login
2	forgot-password.html	Request password reset
3	reset-password.html	Set new password
4	login.html	Login with new credentials

Estimated Time: 2-3 minutes | **Key Pages:** 4 pages

4. Page Categories

4.1 Public Pages (No Login Required)

These pages are accessible to all visitors without authentication:

#	Page	Purpose
1	index.html	Homepage with featured products
2	products.html	Product listing/search results
3	category.html	Category-specific products
4	product-detail.html	Product details (guest view)
5	login.html	User login
6	register.html	New user registration
7	forgot-password.html	Password reset request
8	reset-password.html	Set new password
9	verify-email.html	Email verification

Total Public Pages: 9

4.2 Protected Pages (Login Required)

These pages require user authentication:

#	Page	Purpose
1	product-detail-logged-in.html	Product details (logged-in view)
2	cart.html	Shopping cart
3	checkout.html	Checkout process
4	payment.html	Payment processing
5	order-confirmation.html	Order success page
6	my-profile.html	User profile management
7	my-orders.html	Order history
8	my-reviews.html	Product reviews
9	settings.html	Account settings
10	wishlist.html	Saved/wishlist items

Total Protected Pages: 11

5. Technical Notes

5.1 Technology Stack

- **HTML5** - Semantic markup
- **SCSS/CSS** - Styling with preprocessor
- **Bootstrap** - Responsive framework
- **Font Awesome** - Icon library
- **JavaScript** - Interactive functionality

5.2 File Structure

```
akku-electronics/  
├─ index.html  
├─ products.html  
├─ category.html  
├─ product-detail.html  
├─ product-detail-logged-in.html  
├─ login.html  
├─ register.html  
├─ forgot-password.html  
├─ reset-password.html  
├─ verify-email.html  
├─ cart.html  
├─ checkout.html  
├─ payment.html  
├─ order-confirmation.html  
├─ my-profile.html  
├─ my-orders.html  
├─ my-reviews.html
